(Chairman, Dept. of MCA, Bangalore University)

Venue: St. Claret College Auditorium
Date: February 24, 2012
Time: 9:30 am to 3:30 pm

PRAJNAN – 2012

Prajnan is a platform that St. Claret College provides for the skill development of faculty and students of higher education. The first edition of Prajnan was launched in the year 2010 at SCC by Dr. N. Prabhu Dev, Vice Chancellor of Bangalore University. The Sanskrit word PRAJNAN means wisdom with power. Through a series of conferences and workshops, this forum brings together experts, consultants, faculty and students to learn the latest trends in higher education and develop new skills to achieve academic excellence. This edition of Prajnan focuses on the latest Microsoft computer applications in higher education. The leading experts of Microsoft will conduct the training sessions during the workshop. You will discover your new potential to learn and excel.

The Host Institution

St. Claret College, founded in 2005, is managed by the International Society of Claretian Missionaries who run two Universities and over 150 educational institutions across 65 countries in the world. The college had a humble beginning with 50 students and four full time faculty members. It has grown by leaps and bounds into six degree programmes and post graduate programme in management. Moved by its integral vision of education which facilitates whole person learning and learning to be a whole person, the institution moulds students to be enlightened leaders who are spiritually vibrant, intellectually competent, morally responsible and socially just global citizens. Within this short span of time, St. Claret College has students who won Bangalore University Ranks and Sports championships. The visionary leadership of Claret management, creative efforts of students, and unflagging commitment of faculty, support of parents and the collaboration of society at large provide thrust to the life and legacy of the college.

Microsoft Skill Development Workshop

The applications of latest trends in Information Technology have become a universal phenomenon. Microsoft presents an intensive training workshop on Windows Azure, Windows Phone 7 and Virtualization for both faculty and students to enhance their capacity to manage Information Technology. Windows Azure is an open cloud platform that enables you to quickly build, deploy and manage applications across a global network of Microsoft managed data centres. Windows Phone 7 (WP7), the only phone with mobile office, Xbox LIVE, mobile applications and more, is the latest version of the Windows mobile operating system developed by Microsoft. The workshop will look at the Windows Phone 7 Application and Game Development. This workshop also offers you an opportunity to learn how virtualization improves the efficiency and availability of IT resources & applications.

Key Topics:

- Windows Azure
- Windows Phone 7 (WP7)
- Virtualization

Resource Persons (Leading Microsoft Experts):

- Mr. Abhishek Narain
- Mr. Yashkumar Paresh
