

Principal's Message

Dear Claretines,

St. Claret College is NAAC accredited with A+ Grade (CGPA of 3.31 on 4) in the second cycle of accreditation. We are now counted among the best of higher education institutions in the country. In fact, SCC is the highest NAAC graded affiliating college under Bangalore University. This achievement is the result of years of hard work from our faculty, staff, students, alumni, parents and management. My heartiest congratulations to you all and specially to IQAC (Internal Quality Assurance Cell) of SCC.

What are the benefits of NAAC accreditation for us? The accreditation identifies the quality of the institute in terms of its faculty, research, education, infrastructure, etc., and it gives our students confidence that they are selecting a quality institution.

To us, the accreditation process has ensured seamless internal processes and brought clarity on inter and intra-institutional communication. Our journey of accreditation has also introduced us to modern and innovative educational methods. In the long run, the process of accreditation has given us new direction for success. Our next step is Autonomous status for the college.

The accreditation works have also helped us identify our strengths, weaknesses, and opportunities using a continuous evaluation process. Further, the SWOT analysis has enabled us to understand the need for planning in the internal areas and allocating resources.

The students graduating from an A+ accredited institution have the distinct advantage of better placement opportunities as corporate organizations consider NAAC grades as authentic quality indicator. For students who aspire higher education in other institutions after studying at SCC, the accreditation provides an added advantage for admissions. The logic is simple: Better the NAAC grade, better the institution.

We are not resting on our laurels. Our accreditation achievement gives us motivation to work harder to achieve greater heights.

Fr. Dr. Thomas Thennadiyil
Principal
