Jesus Christ

Blessed Virgin Mary

St. Anthony Mary Claret

Vision

To promote educational excellence, leadership and service, based on universal love in an environment characterized by respect for the individual and concern for the community, so as to effect holistic transformation in each student.

Mission

To form intellectually competent, professionally skilled, spiritually vibrant, morally responsible, socially just and culturally sensitive global citizens through holistic Claretine education to advance a civilization of love and harmony.

Core Values

➤ Faith in God

➤ Justice

➤ Truthfulness & Personal Integrity

➤ Respectful Relationality

➤ Service

➤ Synergic Co-operation

➤ Intellectual Competence

Objectives

➤ To provide value-based, meaningful and productive higher education.

➤ To offer conventional, professional and employment-oriented regular programme supplemented by innovative add-on courses to equip students for effective and fruitful personal and professional lives.

➤ To provide on-going training, research, and documentation at the service of knowledge and life enhancement, and community and nation building.

➤ To create scientific temper, research rigor, holistic vision and leadership skills at the service of building up a better society.

➤ To impart basic values of peace, love, justice, compassion, community-mindedness, and a life of gratitude in the younger generation.

Advancing Knowledge. Transforming Lives.

St. Claret College, Autonomous (SCC), established in 2005 by the Missionary Congregation of the Claretians, has been committed to the holistic development of young minds. Rooted in the vision of St. Anthony Mary Claret and supported by the rich Christian intellectual tradition, SCC offers integral education that shapes students into enlightened leaders who contribute to building a civilization of love and harmony. Recognized by the UGC, permanently affiliated to Bangalore University, approved by AICTE, and accredited with an A+ Grade by NAAC, SCC was granted Autonomous Status by UGC in 2024. The college is part of a vibrant campus in Bengaluru, managed by the Claretian Society for Integral Human Development, which also oversees St. Claret Pre-University College, St. Claret School, and Anthony Claret School.

Our serene and picturesque campus provides an environment that inspires serious academic pursuits and professional growth. With world-class infrastructure and state-of-the-art facilities, SCC nurtures a learning culture that is both supportive and challenging. SCC is truly a meeting ground of cultures, faiths, and nationalities. The respect for diversity, along with our focus on value-based and excellence-driven education, makes learning at SCC a transformative and enriching experience.

Our postgraduate programmes are crafted to equip students for the complexities of the contemporary world. They place strong emphasis on research and innovation, advanced skill development, global competence, technology integration, experiential learning, community engagement, and critical thinking. With a focus on employability and career readiness, our graduates secure placements in reputed national and international organizations, where they continue to make significant contributions to society.

I warmly welcome aspiring students to explore the postgraduate opportunities at St. Claret College, Autonomous, Bengaluru, and join us in this journey of academic excellence, professional growth, and personal transformation.

Certificate Course: Statistical Data Analysis using & SPSS and JAMOVI

Field Work and Practical Training

Fieldwork is an integral part of the MSW programme at St. Claret College. Our students collaborate with esteemed organizations, gaining invaluable practical experience and contributing to real-world social interventions. Fieldwork enables students to apply theoretical knowledge to practical scenarios, enriching their academic foundation with experiential learning. Students gain hands-on experience in case management, counseling, community engagement, and project execution, equipping them with the skills needed for professional success. At St. Claret College, the fieldwork and practical training components of the MSW programme ensure that students not only learn but also practice the art and science of social work, preparing them to lead change with expertise and empathy.

MSW
Master of Social Work

The Master of Social Work (MSW) programme at St. Claret College is a two-year full time Postgraduate Master's degree designed to prepare students for a dynamic and impactful career in social work, focusing on professional excellence, social justice, and community empowerment. With a curriculum rooted in contemporary issues, practical exposure, and a commitment to holistic development, this programme equips students to address complex societal challenges through innovative solutions and compassionate leadership. This programme offers a comprehensive exploration of diverse and emerging fields in social work, enabling graduates to excel in specialized areas.
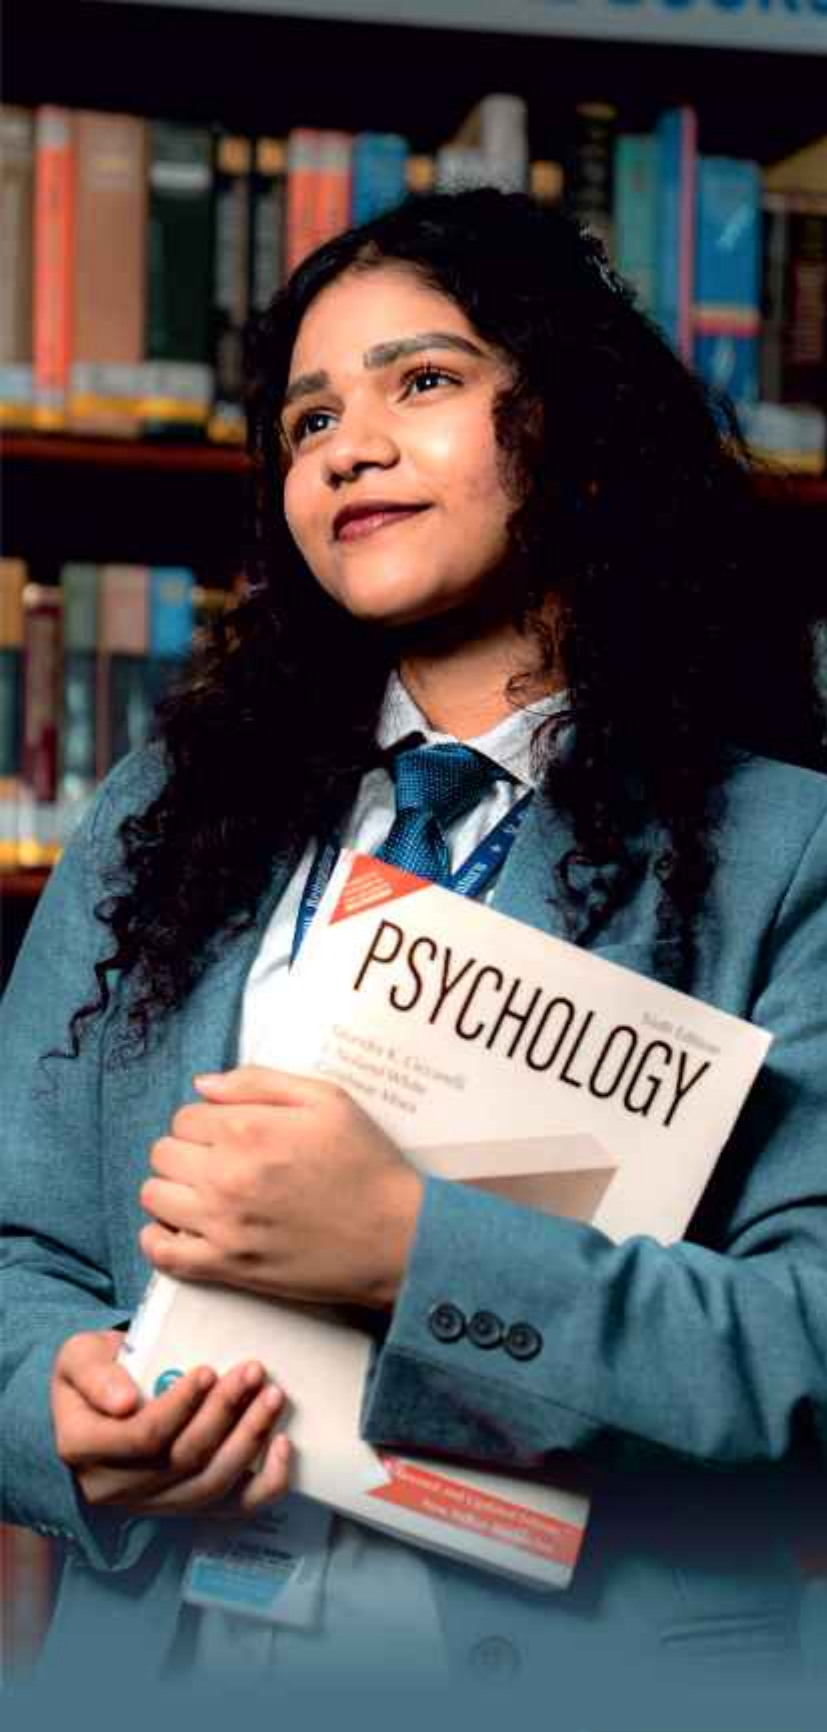

Specialisations:
- Human Resource Management
- Medical & Psychiatric Social Work
- Community Development

Add-on Courses offered as part of MSW
1. Corporate Social Responsibility

Eligibility Criteria : A candidate who has passed any Bachelor's Degree with 50% in aggregate of all subjects (45% for SC/ST and category I candidates), of any university from India or Abroad, considered as equivalent thereto are eligible for admission to MSW programme.

M. Sc.
Psychology

The M.Sc. in Psychology is an extensive and advanced programme aimed at providing students with an in-depth knowledge of human behavior, emotions, and cognitive functions. This two-year graduate programme combines theoretical knowledge with hands-on experience. Students gain expertise in psychological assessment, therapeutic techniques, and evidence-based interventions, preparing them to work in clinical, counselling, organizational, and research settings.

Programme Highlights:

- Research focus with opportunities to conduct independent projects and present findings.
- Workshops & seminars led by experts in mental health, education and industry.
- Community engagement through outreach programs and awareness initiatives.

Specialisations:

- Clinical Psychology
- Industrial and Organizational Psychology

Add-on courses:
- Applied Behavior Analysis

Skill Development course:
- Essential Skills for Mental Health Practitioners

Eligibility Criteria: Candidates should have completed their graduation and should have 40% marks in the aggregate of all the optional subjects. Psychology is required to be one of the subjects and the candidates are required to have 50% of marks in Psychology at the Bachelor Degree level.

M. Sc.
Psychological Counselling

M. Sc. in Psychological Counselling is a two year postgraduate programme aimed to develop skilled mental health professionals capable of addressing the growing need for emotional and psychological support in today's environment. The curriculum integrates academic knowledge, practical training, and supervised counselling practice, helping students to comprehend, assess, and support clients across varied life situations. Students gain knowledge of crisis intervention methods, evidence-based counseling practices, and mental health promotion tactics. The curriculum equips graduates to work in corporate settings, hospitals, community organizations, schools, and private practice with a strong emphasis on ethics, empathy, and cultural awareness.

Add-on Course offered as part of M.Sc. Programme

- Applied Behavior Analysis

Skill Development Course offered as part of M.Sc. Programme

- Essential Skills for Mental Health Practitioners

Eligibility Criteria:

B.A / B.Sc. degree having studied at least one paper in Psychology at the undergraduate level, or B.Ed or PG Diploma in Counselling from a recognised University with 50% marks in aggregate.

M. Sc.
Data Science

The Master of Science in Data Science is a two-year postgraduate programme that integrates concepts from statistics, computer science, artificial intelligence, and domain knowledge to provide a holistic understanding of data-driven problem solving. The programme is designed to produce highly skilled professionals who can manage, analyze, and interpret complex datasets, and apply advanced analytical techniques to derive meaningful insights that support decision-making across industries.

With the growing demand for data scientists worldwide, this programme equips learners with the technical expertise, research capability, and professional skills needed to meet challenges in both academia and industry.

Programme Objectives:

- To develop strong foundations in mathematics, statistics, and computer science for data-driven decision-making.
- To train students in cutting-edge tools and technologies such as Python, R, SQL, Hadoop, Spark, and cloud platforms.
- To impart knowledge of artificial intelligence, machine learning, and deep learning for advanced analytics.
- To nurture problem-solving skills through case studies, projects, and internships in diverse sectors.
- To prepare students for careers in academia, research, and industry as data scientists, analysts, and AI specialists.

Career Opportunities:

Graduates of the programme can pursue roles such as:

- Data Scientist
- Machine Learning Engineer
- Data Analyst
- Business Intelligence Specialist
- Big Data Engineer
- Research Scientist Data architect.
- Statistician.
- Chief technology officer (CTO)
- Chief data officer (CDO)
- Application architect.
- Project manager.

Eligibility:

A bachelor's degree in Computer Science, Mathematics, Statistics, Engineering, or a related field with a strong foundation in quantitative methods.

Skill Outcomes:

Graduates of M.Sc. Data Science will be able to:

- Apply statistical and machine learning models to solve real-world problems.
- Build predictive models and intelligent systems using AI frameworks.
- Manage and process large-scale structured and unstructured datasets.
- Develop dashboards and visualizations for data-driven storytelling.
- Integrate domain knowledge to provide actionable insights for industries.
- Conduct independent research in data science and publish findings.

MCA
Master of Computer Applications

The Master of Computer Applications (MCA) at St. Claret College, Autonomous is a full-time, AICTE-approved postgraduate programme spanning two years (four semesters). Tailored for graduates with a passion for mastering modern programming languages, the programme offers a well-balanced combination of theoretical knowledge and hands-on practical training. The curriculum is meticulously designed to equip students with the skills needed to conceptualize, design, analyze, and develop cutting-edge software solutions, meeting the dynamic demands of the industry.

The MCA programme prepares students for diverse career opportunities in the ever-evolving IT sector. Graduates can pursue roles such as Business Analysts, System Analysts, IoT Engineers, Cloud Architects, Data Analysts, Data Scientists, Database Administrators, Network Professionals, Software Testers, Web Designers and Developers, Programmers, and IT Managers. The programme's comprehen-sive approach ensures students are industry-ready, adaptable, and capable of excelling in various domains of Information Technology and Management.

Eligibility Criteria:

Candidates who have passed Bachelor degree with not less than 50% of marks in the aggregate of all the years of the degree examination with Mathematics / Statistics / Computer Science / Computer Applications / Business Mathematics / Business Statistics as one of the core or elective course at degree level or graduate degree from a recognized University with Mathematics at 10+2 level. However, in case of the candidates from Karnataka belonging to SC / ST and CAT I, 45% of marks as aggregate shall be considered for admission.

MBA
Master of Business Administration

The MBA programme at St. Claret College, Autonomous develops future leaders and managers who will use their knowledge and skill for the betterment of the world. SCC offers AICTE approved MBA programme and closely works with the industry to provide the best curriculum for the students ensuring not only strong conceptual understanding but also their holistic development into individuals who are guided by values and professionalism. The MBA curriculum is supplemented with multiple certifications in emerging areas like Python Programming, Digital Marketing and Data Science from globally recognized organizations. These certifications ensure that the students are equipped with the latest skills and are ready to take up challenges in their professional life. Real-world case studies and robust industry interaction through workshops, internships and guest lectures enable the students to think analytically and prepare them in areas of crisis management. By enabling the students to do so, SCC is counted among the Best MBA Colleges in Bangalore.

SCC integrates academic research as a fundamental activity in its MBA curriculum. The students are trained to develop research articles and papers and take part in seminars and conferences that deliberate on emerging issues in business and society. The robust training and mentorship culture in the institute prepares students for their interviews and a successful and meaningful career.

Eligibility Criteria: Have a Bachelor's degree in any discipline from a recognized university in India and aboard with a minimum aggregate of 50% marks or equivalent CGPA for general category and 45% for reserved category students. Additionally, candidates may have to clear personal interviews to secure their seats.

Specializations

- **Marketing**
- **Human Resources**
- **Finance**
- **Banking, Finance & Insurance Services**

Global Exposure Through International Immersion

The International Immersion Programme is a transformative component of the MBA journey, designed to prepare students for leadership in a global economy. Through curated visits to internationally reputed universities, multinational corporations, and innovation hubs, students gain first hand exposure to global business strategies, emerging market trends, and cross-cultural perspectives.

This unique opportunity enables MBA students to:

- Interact with global leaders, entrepreneurs, and industry experts.
- Understand diverse business models and regulatory frameworks
- Participate in live case studies and collaborative projects with international peers
- Experience the culture, values, and work ethics of different nations

Beyond academic enrichment, the immersion instills confidence, adaptability, and a global mindset — essential attributes of successful business leaders. It is not merely a visit abroad, but a life-shaping experience that broadens worldviews and opens doors to global career pathways.
