Abraham Lincoln served as the 16th President of the United States, yet he never went to college. In fact, Lincoln had nearly no formal education whatsoever, attending schools for less than a year throughout his childhood. Yet this should not be construed to mean that Lincoln was ignorant or unlearned; on the contrary, he was one of the most well-read leaders of the time. The fact is that Abraham Lincoln educated himself by studying books of religion, philosophy and literature and he continued his voracious reading throughout his life.

A lack of public school education did not prevent Lincoln from becoming a great leader. He led the United States through four years of civil war, which threatened to divide the nation into two separate countries. He was a powerful opponent of slavery and it was largely through his leadership that slavery was abolished in this country.

P.T.O.

Lincoln's determination to educate himself through diligent reading also led to his reputation as a great orator – and even today his speeches are quoted and studied worldwide. He serves as an example of a great leader – and a great reader. His love of books and good literature enabled Abe Lincoln to rise to world renown.
