III Semester B.Com./B.B.M./B.H.M. Examination,
November/December 2013
(Semester Scheme) (Fresh and Repeaters)

A

COMPUTER FUNDAMENTALS

Question Booklet Sl. No.

33394

Time Allowed : 3 Hours

Maximum Marks : 100/90

INSTRUCTIONS TO CANDIDATES

- 100 marks for students of 2012-13 & onwards
 - 90 marks for Repeater students prior to 2012-13
1. Immediately after the commencement of the Examination, you should check that this Booklet does not have any unprinted or torn or missing pages or items, etc. If any of the above defects is found, get it replaced by a Complete Question Booklet of the available series.
 2. Write clearly the Question Booklet Version Code **A, B, C, D** or **E**, in the appropriate space provided for the purpose, in the OMR Answer Sheet.
 3. Enter the name of the Subject, Reg. No., Question Booklet version code and affix Signature on the OMR sheet. As the answer sheets are designed to suit the Optical Mark Reader (O.M.R.) system, special care should be taken to fill those items accurately.
 4. This Question Booklet contains **100** questions carrying equal marks. All questions must be attempted. Each question contains four answers, among them one correct answer should be selected and shade the corresponding option in the OMR sheet.
 5. All the answers should be marked only on the OMR sheet provided and only with a **black** or **blue** ink ball point pen. If more than one circle is shaded / wrongly shaded / half shaded for a given question no marks will be awarded.
 6. Immediately after the final bell indicating the closure of the examination, stop making any further markings in the OMR Answer Sheet. Be seated till the OMR Answer Sheet is collected. After handing over the OMR Answer Sheet to the Invigilator you may leave the examination hall.

P.T.O.

1. Differential Engine was developed by
 - a) Charles Babbage
 - b) Herman Hollerith
 - c) John Von Neumann
 - d) Gottfried Wilhem

2. Micro Computers are also known as
 - a) Mini Computers
 - b) Personal Computers
 - c) Super Computers
 - d) None of these

3. Punched cards was used for
 - a) Both Input and Output
 - b) Only Input
 - c) Only Output
 - d) None of these

4. IBM stands for
 - a) International Board Machines
 - b) International Banking Machines
 - c) International Bureau Machines
 - d) International Business Machines

5. Third Generation Computers are made up of
 - a) Transistor
 - b) Vacuum tubes
 - c) Semiconductors
 - d) None of these

6. VLSI stands for
 - a) Very Least Scale Integration
 - b) Very Large Small Integration
 - c) Very Linear Scale Integration
 - d) Very Large Scale Integration

7. PDAS are also known as
- a) Desktops
 - b) Laptop
 - c) Palm tops
 - d) None of these
8. Fifth Generation Computers will incorporate
- a) Artificial Intelligence
 - b) Artificial Man Power
 - c) Artificial Language
 - d) None of these
9. The computer that process both analog and digital signals is called
- a) Analog Computer
 - b) Digital Computer
 - c) Hybrid Computer
 - d) Main frame Computer
10. Storage capacity of a computer is measured in terms of
- a) Bytes
 - b) Mega Bytes
 - c) Giga Bytes
 - d) All the above
11. Decimal Equivalent of 1011 is
- a) 12
 - b) 11
 - c) 14
 - d) 15
12. Addition of 1001 and 1101 is
- a) 10111
 - b) 10001
 - c) 10110
 - d) 10101
13. What is Binary Equivalent of 27 ?
- a) 11011
 - b) 11000
 - c) 11010
 - d) 10000
14. What is the base of Octal Number System ?
- a) 6
 - b) 5
 - c) 8
 - d) 10

15. BCD stands for
- a) Binary Coded Decimal
 - b) Binary Code Decimal
 - c) Bit Code Decimal
 - d) Byte Coded Decimal
16. The main memory of a computer is called
- a) RAM
 - b) ROM
 - c) Both a and b
 - d) None of these
17. Arithmetic and logical operations in a computer is performed by
- a) Control Unit
 - b) ALU
 - c) CPU
 - d) None of these
18. Pixel means
- a) Picture Element
 - b) Pixel Element
 - c) Picture Electronic
 - d) None of these
19. Cache Memory is used
- a) to increase the processing speed
 - b) to increase the memory capacity
 - c) to increase the both speed and memory
 - d) none of these
20. One of the following output device is
- a) Scanner
 - b) Keyboard
 - c) Mouse
 - d) Speaker
21. A disk coated with reflecting shining material is
- a) Floppy Disk
 - b) Hard Disk
 - c) Optical Disk
 - d) CD-ROM

22. WORM means

- a) Write Only Read Many
- b) Write On Read More
- c) Write Once Read Many
- d) Write One Read More

23. The Computer Keyboard contains

- a) Alphanumeric keys
- b) Special keys
- c) Functional keys
- d) All the above

24. Printed Information is often called as

- a) Soft copy
- b) Hard copy
- c) Both a and b
- d) None of these

25. Printer Resolution is expressed in terms of

- a) dpi
- b) dpe
- c) dps
- d) dpd

26. Page printers are called as

- a) Inkjet printers
- b) Dot matrix printers
- c) Laser printers
- d) None of these

27. Number of dots displayed in x and y co-ordinates is called

- a) Flicker
- b) Resolution
- c) Pixel
- d) None of these

28. Physical component of a computer system is known as

- a) Software
- b) Firmware
- c) Malware
- d) Hardware

29. The translator that converts high language to machine language is called

- a) Assembler
- b) Compiler
- c) Interpreter
- d) Both b and c

30. "Virus" is a
a) Hardware b) Software c) Organism d) Worm
31. Collection of logically related data is called
a) Data b) Database Management System
c) Database d) Data sharing
32. The popular Anti-virus software
a) McAfee b) Symantec
c) Sophos d) All the above
33. The type of virus that resides in computer memory until it is triggered is called
a) Worm b) Bomb c) Trojan d) Anti-virus
34. Operating System is a
a) Application software b) Editor
c) System software d) Database system
35. Drives associated with a piece of hardware is called as
a) Disk b) Files c) Directories d) Kernel
36. Command used to remove or delete a Directory is called
a) dd b) Rdd c) Rd d) Md
37. Which command clears the screen ?
a) CLRSCR b) CLEAR c) CS d) CLS

38. Which command is designed to copy the contents of entire directory ?
a) YCOPY b) XCOPY c) ECOPY d) DCOPY
39. "VER" command display
a) Version of DOS b) Directory listing
c) Date d) None of these
40. "CHKDSK" command
a) Scans the disk b) Check the virus
c) Check the storage space d) None of these
41. "Algorithm" is
a) Dependent on programming language
b) Independent of programming language
c) Contains irregular steps
d) None of these
42. The symbol in flowchart represents
a) Decision b) Input
c) Predefined process d) Processing
43. BASIC means
a) Beginners All Purpose Symbolic Instructor Code
b) Beginners All Purpose Symbolic Instruction Code
c) Beginners All Standards Instructor Code
d) Basic All Purpose Symbolic Instruction Code

51. GUI stands for
- a) Graphical User Interaction
 - b) Graphical User Interface
 - c) Graphics User Interface
 - d) None of the above
52. System Tray displays
- a) Computer Time
 - b) Icons representing the programs
 - c) Both a and b
 - d) None of these
53. A Graphic symbol representing a window element is called
- a) Taskbar
 - b) Statusbar
 - c) Icon
 - d) None of these
54. The name of the application program in the word document is shown in
- a) Menu bar
 - b) Title bar
 - c) Tool bar
 - d) Scroll bar
55. "Ctrl + N" is used to
- a) Open a New Word Document
 - b) Open a Existing Word Document
 - c) Save a New Word Document
 - d) None of these
56. Formatting the text is known as
- a) Aligning
 - b) Justification
 - c) Changing the font style
 - d) All the above
57. "Ctrl + C" is used to
- a) Copy the text to the clipboard
 - b) Cut the text to the clipboard
 - c) Paste the text from the clipboard
 - d) None of these

58. "Redo" and "Undo" options are provided in
a) File Menu b) View Menu c) Edit Menu d) Insert Menu
59. Page in a Word Document can be orientated in
a) Landscape form b) Portrait form
c) Both a and b d) None of these
60. Mass mailing in Word Document is called
a) E-mail b) Letter and mailings
c) Mailing d) Mail merging
61. The top and bottom document title of every page is given using
a) Header b) Footer
c) Both a and b d) None of these
62. Bold, Italic, Regular are known as
a) Font styles b) Font effects
c) Word art d) Text effect
63. Word processor is a
a) System software b) Processor software
c) Application software d) None of these
64. Collection of rows and columns that are displayed on-screen in a scrollable window is called
a) Split sheet b) Spread sheet
c) MS-Word document d) None of these

65. Every cell in a spreadsheet is identified by
a) Cell window b) Active cell c) Cell address d) None of these
66. Formulas are entered in the worksheet cell beginning with
a) “=” symbol b) “ < > ” symbol
c) “:” symbol d) “!” symbol
67. = EXP (number) in EXCEL
a) Returns the factorial of a number
b) Returns the raised power of a given number
c) Rounds of a number to its nearest integer value
d) None of the above
68. MS-Power Point is designed to create
a) Slides b) Charts c) Graphs d) All the above
69. Displaying the small image of each slide in MS-Power Point is called
a) Slide view b) Normal view
c) Slide sorter view d) Outline view
70. Shortcut key for slide show in MS-Power Point is
a) F6 b) F5 c) F7 d) F8
71. Changing the properties of all the slides is called
a) Slide Slave b) Slide Master
c) Slide Numbers d) None of the above

72. File extension of MS-Power Point is
a) pdf b) ppt c) doc d) txt
73. Sharing of information and services is called
a) Networking b) Data transfer
c) Data organization d) None of these
74. Networks are classified based on
a) Size b) Distance c) Structure d) All the above
75. LAN stands for
a) Local Area Networks b) Local Access Networks
c) Last Area Network d) None of the above
76. Each computer connected directly to the central computer is called _____ network.
a) Star b) Ring c) Bus d) Linear
77. Topology in networking means
a) Layout of the network b) Parts of the network
c) Services of the network d) None of these
78. Intranet is a
a) Public Network b) Public and Private Network
c) Private Network d) None of these
79. WWW is
a) World Wide Window b) World Wide Web
c) World Wide Work d) None of these

80. Surfing means
- a) Browsing b) Windowing c) Navigating d) None of these
81. One of the search engine is
- a) Mosaic b) Lycos c) Opera d) Hot Java
82. Multimedia is integration of
- a) text b) sound c) graphics d) all the above
83. _____ RAM retains stored information as long as the power supply is on.
- a) Dynamic RAM b) PROM c) Static RAM d) None of these
84. The type of viruses that use protocols and commands of computer network or e-mail are called
- a) File viruses b) Network viruses
- c) Boot viruses d) Macro viruses
85. BIOS means
- a) Board Interaction Operating System b) Basic Input Out System
- c) Basic Input Output System d) None of these
86. File is a
- a) Primary unit of storage on a computer
- b) Secondary unit of storage on a computer
- c) Tertiary unit of storage on a computer
- d) None of these

87. UDB means

- a) Union Database
- b) Universal Database
- c) Unwanted Database
- d) None of these

88. EXE is an extension of

- a) Word files
- b) Excel files
- c) Executable files
- d) None of these

89. A document on the World Wide Web is called

- a) Web site
- b) Web page
- c) Web browser
- d) None of these

90. The hexadecimal equivalent of 13 is

- a) A
- b) D
- c) E
- d) F

91. Hyperlink links

- a) Web page
- b) Web site
- c) Text file
- d) All of these

92. Pen drive is a

- a) Input device
- b) Output device
- c) Storage device
- d) None of these

93. Which programming languages are classified as low level language ?

- a) Basic
- b) Cobol
- c) FORTRAN
- d) Prolog

94. Which device is used as the standard pointing device in a graphical user environment ?

- a) Keyboard
- b) Mouse
- c) Track ball
- d) Joystick

95. Which access method is used for obtaining a record from a CASSETTE tape ?
- a) Direct
 - b) Sequential
 - c) Random
 - d) None of these
96. Which computer has been designed to be as compact as possible ?
- a) Mini
 - b) Super computer
 - c) Micro computer
 - d) Mainframe
97. Which of the following is still useful for adding numbers ?
- a) EDSAC
 - b) ENIAC
 - c) Abacus
 - d) UNIVAC
98. Which device of computer operation dispenses with the use of the keyboard ?
- a) Joystick
 - b) Light pen
 - c) Mouse
 - d) Touch
99. The list of coded instructions is called
- a) Computer program
 - b) Algorithm
 - c) Flow chart
 - d) Utility programs
100. Binary numbers need more places for counting because
- a) 0's and 1's can be added
 - b) 0's and 1's have to be properly placed
 - c) They are always big numbers
 - d) Binary base is small
